Dear Ann:

Thank you for your letter of June 8, 1989, in which you commend Robert Sherez for the good work he did as substitute teacher in a long term assignment for your classes.

It is gratifying to know that our substitute teacher personnel are doing notable work in the classrooms to maintain good education for our students. I thank you for the time you took to write the commendation; it is not often that we take the time to recognize and praise good work through a personal written statement.

Wishing you a restful and happy summer.

Sincerely,

Sakae N. Loo
